EDUCATION

- **Indian Institute of Information Technology, Sri City** Andhra Pradesh, India
B.Tech in Electronics and Communication Engineering 2023 – 2027
 - : CGPA: 7.32 / 10.00
 - : Relevant Coursework: Data Structures, Database Management Systems, Object-Oriented Programming, Machine Learning, Web Development
- **Delhi Public School, Eldeco** Lucknow, India
Class XII (CBSE) – 93.0% — *Class X (CBSE) – 94.8%* 2019 – 2023

EXPERIENCE

- **National Stock Exchange (NSE) India** Mumbai, India
Software Intern May 2025 – Jul 2025
 - **Self-Service Internal Portal:** • Designed and developed a self-service internal portal used by 100+ employees to create and manage data queries efficiently.
 - Translated 10+ requirements into scalable workflows and reusable UI components, improving delivery by 30%.
 - Implemented role-based access control to ensure secure and compliant data usage .
 - Built full-stack functionality using Angular, FastAPI, and SQLite.
 - Improved operational efficiency by reducing manual intervention by approximately 40%.
 - **AI-Based Document Summarization & Data Extraction Tool:** • Created an AI-driven system to automate document summarization and structured data extraction.
 - Automated weekly Excel reports for 5+ teams, cutting reporting time from 2 hours to 5 minutes.
 - Optimized NLP pipelines using Hugging Face, spaCy, and NLTK.
 - Mechanized repetitive document workflows, reducing manual processing effort by approximately 70%.
- **Matrix** Sri City, India
Web Development & Organizing Team
 - **Website Development & Event Coordination:** • Collaborated with others to design and enhance the official college event website reaching to 1000+ students.
 - Contributed to feature planning, 15+ UI improvements, and deployment, reducing issues by 40%.
 - Coordinated event logistics and on-ground execution to improve participant engagement by 90%.
 - Maintained documentation and tracked tasks using collaborative tools.

PROJECTS

- **Construction Company Portfolio & Project Management Website:** • Engineered a responsive web platform to showcase construction projects and services.
 - Built a structured content management system to handle project listings and updates.
 - Boosted online visibility and user engagement, helping the business reach 1,000+ users.
 - Designed the system with scalability in mind to support future growth up to 1M+ users, ensuring smooth performance across devices and browsers.
- **Human Activity Recognition Using Smartphone Sensor Data:** • Developed a machine learning system to classify human activities using smartphone sensor data.
 - Performed data preprocessing, feature extraction, and model training using Logistic Regression, Random Forest, SVM, and KNN.
 - Optimized model performance through hyperparameter tuning, achieving 96% accuracy using SVM.

PROGRAMMING SKILLS

- **Languages:** Python, C++, C, JavaScript, SQL
- **Frontend:** HTML, CSS, Angular, React
- **Backend:** FastAPI, Node.js
- **Data & ML:** Pandas, NumPy, scikit-learn, NLP
- **Tools:** Git, Notion, SQLite
